ANNA SHAW'S LECTURE

The Lady Greeted by a Splen-
did Audience.

SHE MADE MANY HAPPY HITS

The New Man and the Old Man—The New
Woman and the Old Woman—The Cigar-
ette and Alcohol Friend—The Chrysanthem-
um Dude—We Should Have Manly
Men—"In the Image of God Created He
Him."

Rev. Anna Shaw must have been
gratified when she looked out over
her audience last night, as every
seat in the United Presbyterian
church was occupied, and chairs were
called into requisition.

Services opened with a selection of
song entitled, "God Helping Me," by a
quartet composed of Messrs. Got-
tschall, George, Allison and Swan.
Mrs. Curry, vice president at large of
the Women's Christian Temperance
union, led in prayer, after which the
choir rendered a second selection, and
then Mrs. Howard, president of the
local Women's Christian Temperance
union, introduced the speaker of the
evening.

Miss Shaw is of medium height,
heavy set, and has a strongly intellec-
tual face, while her address is very
pleasing, her pronunciation clear and
clean cut, and every word she uttered
could easily have been heard in any
part of the house, had not a charming
baby in the rear seats been permitted
to run a rival elocutionary effort,
lasting almost throughout the lecture,
causing Miss Shaw to speak in a
higher key than she ordinarily uses.
The dear babies are a blessed feature
in their place, but that place is not in
the presence of an audience which is
deeply interested in hearing every
word uttered by such an eloquent
woman as occupied the platform last
night. At the commencement of the
address, the Salvation Army band
marched by, the music ringing out in
strong volume. Miss Shaw smiled and
said:

"That's not bad music; but I never
attempt to run opposition to a brass
band."

Space forbids the publication of
more than a mere synopsis of this
talented woman's speech. She said
that the talk about the new woman is
now all the rage; the papers were full
of the subject, society conversing
about her and the preachers discussing
her from the pulpit, and stated that she
had received numerous letters re-
questing her to discuss the topic, or
lecture thereon, and the strange part
is that all the letters were written by
men. I do not believe that the new
woman will dress like the men of the
present day, as the average woman
desires, above all else, to dress
well and becomingly, and no human
being can look well, costumed as men
now are. The new woman will not
wear bloomers—they are contrary to
nature. She will not wear a swallow
tail coat, the garment which men as-
sume and call it full dress, for there is
nothing uglier on the face of the
earth than a swallow tail coat. She
will not sport a huge chrysanthem-
um in the lapel of her coat and call
it a button hole bouquet, as the fash-
ionable young man of today is doing;
there is about as much brain in the
flower as there is in the head of the
wearer. The new man—the better
man—will wear just such costume as
best suits the occupation in which he
is engaged. He will wear his hair on
the same principle. The new man
will be what he is not now—physically
developed. They tell us that
"there were giants in those
days;" and there is no good
reason for men not reaching the stature
of giants in the present time, as
we have surrounding us every bless-
ing and requisite necessary for the
full development of manhood and
womanhood. Statistics demonstrate
the fact that, during the past 25 years,
men have decreased in stature from
one to one and one-half inches, while
women have correspondingly increased
in height. This being a fact, gentle-
men, don't you see that it will soon be
an impossibility for women to obey the
old idea of looking up to the head of
the household.

I have often heard it quoted that
such and such a young lady died from
over study. Now, I have never known
a case, in all my educational career,
where a young lady student died from
over study; but I have known her to
die from under exercise, from a failure
to step out into God's free sunshine
and pure air. She does her tatting,
her knitting and embroidery, neglects
her physical nature and well being
and passes away, leaving a beautifully
embroidered motto hanging on the
wall, as a last memento to her mother,
entitled, "In God we trust." She
would have been living still, had she
trusted to and used the common sense

God has bequeathed as a blessing to
mankind and womankind as well. I
thank God for the gymnasiums which
are now a part of every educational
establishment devoted to culturing
young women. I visited a gymnasium
not long since and could not but be
delighted and gratified with the sight
which met my eyes; young women,
healthy and happy looking, arrayed in
costumes which gave freedom to heart,
lungs and muscles, while they swung
from ring to ring, through the air, and
turned somersaults with full free-
dom and grace, and the sight caused
my blood to tingle through my veins,
from finger tips to the ends of my
toes, and the only thing that kept me
from turning somersaults is because I
am not built that way. Development
for women, physically and mentally,
will cause them to wear larger shoes,
as the head will become too large for
such exceedingly small feet. Women
will then have larger and more natural
waists; they must have, in order to
prevent them from breaking off.

Why do your young men not become
stronger, physically and mentally? Let
me tell you. Because they indulge in
the cigarette and alcohol habit. You
will find that men, when they desire
to stunt a dog, pig or donkey, will
feed it tobacco and alcohol, and thus
make of it a runt. We do not de-
sire a nation of runts; but this is what
we will have, unless the new man de-
velops a better and truer type of man-
hood, as statistics tell us that the use
of tobacco and stimulants is greatly on
the increase.

I am weary of the expression that
"the world owes me a living." It does
not such thing. No man has a right to
occupy space in this world unless he
gives to the world the worth of the
space he occupies. I do not have any
faith in the old adage that "competi-
tion is the life of trade." Catch the
right idea, and you will find that co-
operation is the life of trade and busi-
ness.

Men and women are sure, in the new
era, to occupy just such positions as
they deserve—as they are best fitted
for. The old woman has lost her
occupation. The men have
crowded her out. The women
did the cooking in the olden time of
our fathers and mothers; now the
men are doing it, and the 'chef' of a
fashionable hotel receives as large a
salary as the president of Yale col-
lege. You call them 'chefs' now, or
'masters of the art culinary'; were you
to call them 'cooks,' they would drop
dead at your feet. The women form-
erly did the millinery work; now the
men, in all the great fashionable cen-
ters, are the milliners; their clenched
fists are just the size for the mould for
the hat—but the feathers, oh, my! The
women formerly did the dress mak-
ing; but now the men have stolen it
from them. A woman dressmaker
would laugh at us when we asked for
a pocket to be placed in our skirts—the
idea was simply ridiculous. I visited
a man dressmaker and felt
abashed when he knelt at my feet and
arranged my costume. In timid tones
I asked him if I might have a pocket;
he assured me that I might have as
many pockets as I desired. And then,
in trembling accents, full of pathos, I
asked for two pockets, and got them,
and here they are. You have crowded
us out, gentlemen, and we must seek
new fields for employment.

Let me tell you that women are
coming to the front intellectually.
About three young women to every
young man are graduating at our edu-
cational establishments. What is the
cause? The young men are eager for
the almighty dollar. They drop out
of school and enter the race for the
wheel of silver. This should not be
so; but it is a lamentable fact.

Our public schools are grand insti-
tutions. The millionaire's daughter
stands side by side with the daughter
of the charwoman, and the result is
grandly glorious benefits for each—
daughter of wealth and daughter of
poverty. Thank God for our public
school system.

Watch for the new era of true man-
hood and true womanhood. I cannot
tell when it will come—but come it
must, come it will. In that era, men
and women will have trust and faith
in one another; they will be true com-
rades; and women will be true to one
another, standing side by side and
working for the upbuild and uplift of
humanity. Spiritual life will be on a
higher grade, a better and purer
standard. Man will be what God in-
tended he should be; what our Father
in Heaven created him for—"In the
image of God created He him." Woman
will fill the niche the great giver of all
good gifts intended she should fill.
I do not know whether or
not the churches will bring
this about. I do not know
that there will be any churches.
But I do know that this
better era will be controlled by reli-
gious life, a life purer by far than

IT IS AN OPEN LETTER

And it Speaks in Plain and
Open Terms.

P. M. ASHFORD CALLED DOWN

Seven Stalwart Representative Republi-
can Citizens of East Liverpool Address
an Open Letter to One of Our Repre-
sentatives.

EAST LIVERPOOL, Feb. 14, 1896.

SIR:—We notice, by your official
report, that by your vote on the
Harris bill you are on the side of
those who deal in liquor fire; who are
in the business of making drunkards,
beggars and paupers, for the sober,
industrious and respectable portion of
our community to support; that you
favor by your vote a business which
excites men to deeds of riot, robbery,
blood, arson, treason; supplies victims
for the asylums, poorhouses, prisons
and galleys; multiplies the number of
distressing and loathsome diseases,
rendering incurable many others of
harmless tendency, and visiting the
sins of the fathers and mothers unto
the third and fourth generation of
innocents yet unborn; you favor a
business which deprives many of life
and reason; most of property and all
of peace; makes fathers fiends, wives
widows, children orphans, countless
numbers mendicants, public charges,
and burdens on public and private
institutions of charity and benevol-
ence; and many to grow up in igno-
rance and vice, a menace to the free
and God-given institutions of our
blessed land.

You favor a business which causes
husbands to neglect their wives,
fathers and mothers their children,
and places the diabolical monster of
discord, hatred and cruelty in thou-
sands of homes where love and peace
were wont to reign; which defiles even
the purity of the law and ermine,
obstructs the progress of the gospel,
and its blessed tidings of salvation,
prostitutes character, shatters health,
shortens human life, endangers lib-
erty, inflicts temporal, and—awful to
contemplate—eternal death upon
countless thousands of its deluded vic-
tims.

Are you a man, or a fiend, that by
your vote you would seek to prevent
the curtailment of the dreadful
terrors of this hellish traffic? Are
you a Christian, and would vote for
the continuance of a business which
defiles and tramples upon the laws of
God, the laws of our country, sends
thousands to premature graves, and—
as if the cup were not full—unpre-
pared, to the presence of their Creator
and God?

You claim the right to vote as you
please—a right which we do not deny
you. You may claim the right to
vote as your conscience dictates. That
also is unquestionably yours.

But if either your pleasure or your
conscience require such a sacrifice,
then remember that to your constitu-
ents belong the same privileges, and
that as you are accountable to them
for your actions as their representa-
tive (?), the day of reckoning will
surely come; retributive justice will
surely follow wrong.

God have mercy on your soul, and
save this free and glorious country
from the perversions of its enemy—
the liquor traffic and its supporters.
We are,

SEVEN VOTERS WHO VOTED FOR YOU

JUST ISSUED.

Superintendent Southworth's Annual Re-
port of the Home.

The nineteenth annual report of
the trustees and superintendent of
the Fairmount children's home is just
issued and covers the year ending Oc-
tober 31, 1895. It embraces a detailed
description of the home, its location,
surroundings, report of the board of
trustees, physician's report, visiting
committee's report, a statement of re-
ceipts and disbursements, and many
other very interesting items regarding
the home. The report clearly shows
the painstaking care and efficient
services of Superintendent South-
worth and his wife. The home is evi-
dently in a highly prosperous condi-
tion, and the children are being kindly
and carefully cared for.

THE SKYLES CHILDREN

Will Be Taken to the Fairmount Home
Monday.

The Skyles children, whom the
township trustees were asked to take
charge of, will be conveyed to the or-
phans' home on Monday. The father
called at the office yesterday afternoon
and said he had been misrepresented.
He stated that he would like to
keep the children if he
was able to do so, but was out of
work. The ages of the children range
from 5 to 12 years. An endeavor will

be made by the trustees to get the
oldest child, who is a girl, a place in
this city, but if they do not meet with
success she will also be sent to the
home, where they will be all well cared
for.

INDORSED SMITH.

Center Township Holds Its Republican
Caucus.

Center township held its caucus at
Lisbon last night and selected dele-
gates to the congressional convention.
A set of resolutions were drawn up
indorsing W. L. Smith, of this city, as
delegate to the national convention at
St. Louis. Mr. Smith is assured of the
entire support of Columbiana county,
and should be successful, will be an
able representative of the Republican
party of this district.

IN SESSION.

The Executive Council of the N. B. of O.
P. Here Today.

The executive council of the N. B.
of O. P. is in session here today and a
full quota of officers are present, among
the number being: J. J. Jackson, sec-
retary, of Wheeling; Mr. Nesbit,
Wheeling; James Stevenson, Tiffin.
Business of importance will be trans-
acted by the council, together with a
great deal of other routine business.

Awaiting Developments.

Referring to the agitation that has
been caused in the East End schools,
over the manner in which the children
have been treated, Agent Lloyd said
that nothing was being done just now,
as developments will arrive in due
season, when proper action will then
be taken. The good work in this line
was started exclusively by the News
Review, through the courtesy and
kindness of a reader who knows that
this paper reaches all the people.

Epworth League Services.

At the Epworth league service of
the First M. E. church, on Sunday
night, memorial talks will be made in
memory of Frank Trainor, lately
called to the presence of the Master,
and who evidenced the fact, by his life
and death, that the Christian's life is
preferable to all else—good for this
life and that which is to come. You
have a cordial invitation to be present
tomorrow night. Services commence
promptly at 6:30.

Played with the Fire.

An eleven-months-old child of
Charles Aley, of Bank street, was
painfully burned about the hands last
night. The little one was left alone
in the room, where fire was burning
in the grate, and not knowing the
danger, pulled a poker out of the
fire, and grasping the red hot end,
was badly blistered. The mother was
attracted by the screams of the child,
and applied a healing lotion to the
burns.

Old Fashioned Party.

The old fashioned leap year party
given at Bradshaw hall last night by
Miss Mabel McIntosh was attended
by about 35 couples, who enjoyed
themselves to their utmost capacity.
Those present were dressed in ve old
time clothes, and at 12 o'clock a lunch
was served. The dance was a decided
novelty and reflects credit upon its
projectors.

After a Car.

A traveling man, who evidently
didn't know street cars wouldn't stop
on the hill on Washington street, stood
at Third street this morning, with the
intention of boarding a westbound
street car. After the car passed with-
out stopping he chased after it, mak-
ing a good record up the hill and
boarding the car at Fourth street.

A Pleasant Time.

The leap year party given at the
home of John Agner, Fourth street,
last night, was attended by 18 couples,
who report a very enjoyable time. An
elegant repast was served, and the
guests departed for their homes, de-
claring it the most successful leap year
party they had ever attended.

Had a Diseased Eye Removed.

Mrs. Hall, of Lisbon street, has
returned from Cleveland, after under-
going a successful operation at a
hospital there, in having an eye
removed. The optic was diseased and
threatened to destroy the sight of
the good eye, hence the removal of it.

New Freight Cars.

The Pennsylvania company is build-
ing at its Port Wayne shops some cars
on an entirely new plan. These cars
are intended for carrying light, bulky
freight. A distinctive feature of the
cars is a door 10 feet wide and extend-
ing to the roof.

Full Account Monday.

The proceedings of General Lyon
post, in reference to Lincoln's anni-
versary, will appear in Monday's issue
of this paper.

THE BIBLE QUESTION

Must Discontinue Reading It in
the Schools.

SOME OF THE TEACHERS OBJECT

They Refuse to Comply With the Edict
and the Outcome May Prove Interesting.
A Matter of Principle With Some of the
Teachers.

The Bible question in the schools
again comes up for a warm discus-
sion.

The action of the board in regard to
this matter has apparently been in-
terpreted by Superintendent Sanor as
an objection to the reading of the
Bible in the schools, and accordingly
he has notified a number of teachers,
who have been in the habit of reading
it to their scholars, to desist. This
notification caused quite a commotion,
and a few of the teachers positively
refused to comply with the new edict,
claiming that the privilege of reading
the Bible was always accorded to them,
and that they would continue to read
it in the future as they had done in
the past, regardless of what might
follow. The superintendent argued
the matter further with the teachers,
but they remained obdurate, and said
that it was a matter of principle with
them, and that under no considera-
tion would they obey the ruling. One
of the teachers was seen and said that
she felt perfectly justified in the
stand that she had taken; she believed
that the majority of citizens would
bear her out in this, and if her resig-
nation was demanded by the board,
that there were other avenues of em-
ployment she would follow. She also
stated that some of the teachers in
anticipation of an antagonistic atti-
tude by the board, have taken the
necessary precaution of making ap-
plications to teach in out of town
schools, lest their resignations be de-
manded.

At the opening of school a vote was
taken by the teachers of the central
building in order to ascertain what
their sentiments were regarding this
question; the result showed that
but one teacher was arrayed in op-
position to the reading of the Bible.
A few of the teachers who were en-
joined to discontinue the reading of
the Bible did not take the decided
stand that others did, but complied,
fearing the consequences that other-
wise might follow. It was also stated
that the text book containing ex-
tracts from the Bible be used instead
of that book, but this demand was
also refused by the teachers. The
privilege to refer to the Bible in a
historical sense is permitted. One
of the teachers was very indignant at the attitude
assumed by some of the members of
the board. She termed them figure-
heads; she had heard that one mem-
ber expressed himself 'that he would
vote with the majority; she roundly
scorched him for not having an
opinion of his own, and added further
that it was a pity that there wasn't a
few more lady members on the board,
who had the courage of their convic-
tions. The end is not yet.

Ho, For the Gold Fields.

Milton Moore, the Liverpool man
who made a fortune in the gold fields
in Colorado, will return to that state
next week. With him go James
Swaney, the popular electrician, and
Will Dickey, who have been promised
situations at Aura, Col., where Mr.
Moore has five mines. They will
probably remain there permanently.

Will Address the Girls.

The members of the board of edu-
cation were so pleased with the lecture
of Rev. Anna Shaw, at the United
Presbyterian church last night, that
they are making an effort to have her
come here next week and deliver an
address to the girls of the public
schools. The date has not yet been
set.

Convention Here Next June.

At the meeting of the sub-district
of the Epworth league in session at
Steubenville yesterday, it was decided
to hold the next convention of the dis-
trict in East Liverpool on June 25 and
26. This was the most important
business transacted.

Mrs. Brindley Very Low.

Mrs. John Brindley is lying at her
home on West Market street, pro-
strated over the death of her husband.
Last night she was in a very precar-
ious condition, and grave fears are ex-
pressed for her recovery.

Was Taken to Lisbon.

Charles Emerling, the boy who
Truant Officer Beardmore had ar-
rested, was taken to Lisbon yesterday
by Constable Lyon and turned over to
the probate judge. He has not yet re-
ceived his sentence.

You will find that men, when they desire to stunt a dog, pig or donkey, will feed it tobacco and alcohol, and thus make of it a runt. We do not desire a nation of runts; but this is what we will have, unless the new man develops a better and truer type of manhood, as statistics tell us that the use of tobacco and stimulants is greatly on the increase.

I am weary of the expression that "the world owes me a living." It does no such thing. No man has a right to occupy space in this world unless he gives to the world the worth of the space he occupies. I do not have any faith in the old adage that "competition is the life of trade." Catch the right idea, and you will find that co-operation is the life of trade and business.

Men and women are sure, in the new era, to occupy just such positions as they deserve—as they are best fitted for. The old woman has lost her occupation. The men have crowded her out. The women did the cooking in the olden time of our fathers and mothers; now the men are doing it, and the "chef" of a fashionable hotel receives as large a salary as the president of Yale college. You call them "chefs" now, or "masters of the art culinaire;" were you to call them "cooks," they would drop dead at your feet. The women formerly did the millinery work; now the men, in all the great fashionable centers, are the milliners; their clenched fists are just the size for the mould for the hat—but the feathers, oh, my! The women formerly did the dress making; but now the men have stolen it from them. A woman dressmaker would laugh at us when we asked for a pocket to be placed in our skirts—the idea was simply ridiculous. I visited a man dressmaker and felt abashed when he knelt at my feet and arranged my costume. In timid tones I asked him if I might have a pocket; he assured me that I might have as many pockets as I desired. And then, in trembling accents, full of pathos, I asked for two pockets, and got them, and here they are. You have crowded us out, gentlemen, and we must seek new fields for employment.

Let me tell you that women are coming to the front intellectually. About three young women to every young man are graduating at our educational establishments. What is the cause? The young men are eager for the almighty dollar. They drop out of school and enter the race for the wheel of silver. This should not be so; but it is a lamentable fact.

Our public schools are grand institutions. The millionaire's daughter stands side by side with the daughter of the charwoman, and the result is grandly glorious benefits for each—daughter of wealth and daughter of poverty. Thank God for our public school system.

Watch for the new era of true manhood and true womanhood. I cannot tell when it will come—but come it must, come it will. In that era, men and women will have trust and faith in one another; they will be true comrades; and women will be true to one another, standing side by side and working for the upbuild and uplift of humanity. Spiritual life will be on a higher grade, a better and purer standard. Man will be what God intended he should be; what our Father in Heaven created him for—"In the image of God created He him." Woman will fill the niche the great giver of all good gifts intended she should fill. I do not know whether or not the churches will bring this about. I do not know that there will be any churches. But I do know that this better era will be controlled by religious life, a life purer by far than

IT IS AN OPEN LETTER

And it Speaks in Plain and Open Terms.

P. M. ASHFORD CALLED DOWN

Seven Stalwart Representative Republican Citizens of East Liverpool Address an Open Letter to One of Our Representatives.

EAST LIVERPOOL, Feb. 14, 1896.

Hon. P. M. Ashford, Columbus, Ohio. SIR:—We notice, by your official reports, that by your vote on the Harris bill you are on the side of those who deal in liquor fire; who are in the business of making drunkards, beggars and paupers, for the sober, industrious and respectable portion of our community to support; that you favor by your vote a business which excites men to deeds of riot, robbery, blood, arson, treason; supplies victims for the asylums, poorhouses, prisons and gallows; multiplies the number of distressing and loathsome diseases, rendering incurable many others of harmless tendency, and visiting the sins of the fathers and mothers unto the third and fourth generation of innocents yet unborn; you favor a business which deprives many of life and reason; most of property and all of peace; makes fathers fiends, wives widows, children orphans, countless numbers mendicants, public charges, and burdens on public and private institutions of charity and benevolence; and many to grow up in ignorance and vice, a menace to the free and God-given institutions of our blessed land.

You favor a business which causes husbands to neglect their wives, fathers and mothers their children, and places the diabolical monster of discord, hatred and cruelty in thousands of homes where love and peace were wont to reign; which defiles even the purity of the law and ermine, obstructs the progress of the gospel, and its blessed tidings of salvation, prostitutes character, shatters health, shortens human life, endangers liberty, inflicts temporal, and awful to contemplate—eternal death upon countless thousands of its deluded victims.

Are you a man, or a fiend, that by your vote you would seek to prevent the curtailment of the dreadful terrors of this hellish traffic? Are you a Christian, and would vote for the continuance of a business which defiles and tramples upon the laws of God, the laws of our country, sends thousands to premature graves, and—as if the cup were not full—unprepared, to the presence of their Creator and God?

You claim the right to vote as you please—a right which we do not deny you. You may claim the right to vote as your conscience dictates. That also is unquestionably yours.

But if either your pleasure or your conscience require such a sacrifice, then remember that to your constituents belong the same privileges, and that as you are accountable to them for your actions as their representative (?), the day of reckoning will surely come; retributive justice will surely follow wrong.

God have mercy on your soul, and save this free and glorious country from the perversions of its enemy—the liquor traffic and its supporters. We are,

SEVEN VOTERS WHO VOTED FOR YOU

JUST ISSUED.

Superintendent Southworth's Annual Report of the Home.

The nineteenth annual report of the trustees and superintendent of the Fairmount children's home is just issued and covers the year ending October 31, 1895. It embraces a detailed description of the home, its location, surroundings, report of the board of trustees, physician's report, visiting committee's report, a statement of receipts and disbursements, and many other very interesting items regarding the home. The report clearly shows the painstaking care and efficient services of Superintendent Southworth and his wife. The home is evidently in a highly prosperous condition, and the children are being kindly and carefully cared for.

THE SKYLES CHILDREN

Will Be Taken to the Fairmount Home Monday.

The Skyles children, whom the township trustees were asked to take charge of, will be conveyed to the orphan's home on Monday. The father called at the office yesterday afternoon and said he had been misrepresented. He stated that he would like to keep the children if he was able to do so, but was out of work. The ages of the children range from 5 to 12 years. An endeavor will

be made by the trustees to get the oldest child, who is a girl, a place in this city, but if they do not meet with success she will also be sent to the home, where they will be all well cared for.

INDORSED SMITH.

Center Township Holds Its Republican Caucus.

Center township held its caucus at Lisbon last night and selected delegates to the national convention at St. Louis. Mr. Smith is assured of the entire support of Columbiana county, and should be successful, will be an able representative of the Republican party of this district.

IN SESSION.

The Executive Council of the N. B. of O. P. Here Today.

The executive council of the N. B. of O. P. is in session here today and a full quota of officers are present, among the number being: J. J. Jackson, secretary, of Wheeling; Mr. Nesbit, Wheeling; James Stevenson, Tiffin. Business of importance will be transacted by the council, together with a great deal of other routine business.

Awaiting Developments.

Referring to the agitation that has been caused in the East End schools, over the manner in which the children have been treated, Agent Lloyd said that nothing was being done just now, as developments will arrive in due season, when proper action will then be taken. The good work in this line was started exclusively by the NEWS REVIEW, through the courtesy and kindness of a reader who knows that this paper reaches all the people.

Epworth League Services.

At the Epworth league service of the First M. E. church, on Sunday night, memorial talks will be made in memory of Frank Trainor, lately called to the presence of the Master, and who evidenced the fact, by his life and death, that the Christian's life is preferable to all else—good for this life and that which is to come. You have a cordial invitation to be present tomorrow night. Services commence promptly at 6:30.

Played with the Fire.

An eleven-months-old child of Charles Aley, of Bank street, was painfully burned about the hands last night. The little one was left alone in the room, where fire was burning in the grate, and not knowing the danger, pulled a poker out of the fire, and grasping the red hot end, was badly blistered. The mother was attracted by the screams of the child, and applied a healing lotion to the burns.

Old Fashioned Party.

The old fashioned leap year party given at Bradshaw hall last night by Miss Mabel McIntosh was attended by about 35 couples, who enjoyed themselves to their utmost capacity. Those present were dressed in ye old time clothes, and at 12 o'clock a lunch was served. The dance was a decided novelty and reflects credit upon its projectors.

After a Car.

A traveling man, who evidently didn't know street cars wouldn't stop on the hill on Washington street, stood at Third street this morning, with the intention of boarding a westbound street car. After the car passed without stopping he chased after it, making a good record up the hill and boarding the car at Fourth street.

A Pleasant Time.

The leap year party given at the home of John Agner, Fourth street, last night, was attended by 18 couples, who report a very enjoyable time. An elegant repast was served, and the guests departed for their homes, declaring it the most successful leap year party they had ever attended.

Had a Diseased Eye Removed.

Mrs. Hall, of Lisbon street, has returned from Cleveland, after undergoing a successful operation at a hospital there, in having an eye removed. The optic was diseased and threatened to destroy the sight of the good eye, hence the removal of it.

New Freight Cars.

The Pennsylvania company is building at its Port Wayne shops some cars on an entirely new plan. These cars are intended for carrying light, bulky freight. A distinctive feature of the cars is a door 10 feet wide and extending to the roof.

Full Account Monday.

The proceedings of General Lyon post, in reference to Lincoln's anniversary, will appear in Monday's issue of this paper.

THE BIBLE QUESTION

Must Discontinue Reading It in the Schools.

SOME OF THE TEACHERS OBJECT

They Refuse to Comply With the Edict and the Outcome May Prove Interesting. A Matter of Principle With Some of the Teachers.

The Bible question in the schools again comes up for a warm discussion.

The action of the board in regard to this matter has apparently been interpreted by Superintendent Sanor as an objection to the reading of the Bible in the schools, and accordingly he has notified a number of teachers, who have been in the habit of reading it to their scholars, to desist. This notification caused quite a commotion, and a few of the teachers positively refused to comply with the new edict, claiming that the privilege of reading the Bible was always accorded to them, and that they would continue to read it in the future as they had done in the past, regardless of what might follow. The superintendent argued the matter further with the teachers, but they remained obdurate, and said that it was a matter of principle with them, and that under no consideration would they obey the ruling. One of the teachers was seen and said that she felt perfectly justified in the stand that she had taken; she believed that the majority of citizens would bear her out in this, and if her resignation was demanded by the board, that there were other avenues of employment she would follow. She also stated that some of the teachers in anticipation of an antagonistic attitude by the board, have taken the necessary precaution of making applications to teach in out of town schools, lest their resignations be demanded.

At the opening of school a vote was taken by the teachers of the central building in order to ascertain what their sentiments were regarding this question; the result showed that but one teacher was arrayed in opposition to the reading of the Bible. A few of the teachers who were enjoined to discontinue the reading of the Bible did not take the decided stand that others did, but complied, fearing the consequences that otherwise might follow. It was also stated that the text book containing extracts from the Bible be used instead of that book, but this demand was also refused by the teachers. The privilege to refer to the Bible in a historical sense is permitted. One of the teachers was very indignant at the attitude assumed by some of the members of the board. She termed them figure-heads; she had heard that one member expressed himself that he would vote with the majority; she roundly scolded him for not having an opinion of his own, and added further that it was a pity that there wasn't a few more lady members on the board, who had the courage of their convictions. The end is not yet.

Ho, For the Gold Fields.

Milton Moore, the Liverpool man who made a fortune in the gold fields in Colorado, will return to that state next week. With him go James Swaney, the popular electrician, and Will Dickey, who have been promised situations at Aura, Col., where Mr. Moore has five mines. They will probably remain there permanently.

Will Address the Girls.

The members of the board of education were so pleased with the lecture of Rev. Anna Shaw, at the United Presbyterian church last night, that they are making an effort to have her come here next week and deliver an address to the girls of the public schools. The date has not yet been set.

Convention Here Next June.

At the meeting of the sub-district of the Epworth league in session at Steubenville yesterday, it was decided to hold the next convention of the district in East Liverpool on June 25 and 26. This was the most important business transacted.

Mrs. Brindley Very Low.

Mrs. John Brindley is lying at her home on West Market street, prostrated over the death of her husband. Last night she was in a very precarious condition, and grave fears are expressed for her recovery.

Was Taken to Lisbon.

Charles Emerling, the boy who Truant Officer Beardmore had arrested, was taken to Lisbon yesterday by Constable Lyon and turned over to the probate judge. He has not yet received his sentence.

For President,

WILLIAM MCKINLEY,

OF Ohio.

ANNA SHAW is a power in her special

Our high school girls would derive

OUR BIBLE.

And now we have the assurance

that the book of holy writ is not to be

read in the public schools of East

Liverpool by the teachers, as Superintendent

Sanor evidently understands this to be

the decision of our board of education.

We have this information directly from

one of the teachers, a lady whose veracity

cannot be questioned, and who has been in the

habit of reading the book of books to her

pupils. The next question at issue

will probably be: "Can the teachers or

pupils take the Bible with them to school,

if they so desire?" The matter has caused a

decided sensation in the city and will not

be cried down. A large number of staunch

and conservative citizens have interviewed

the management of the News Review on this

subject, and they denounce, in no measured

terms, the action of the board of education

respecting the Bible question. The outlook is

that those who advocate reading of the

inspired volume in the public schools will

not let the matter rest, as their number is

legion, and they consider the subject one of

vital import to the community at large,

believing that the reading thereof is

conducive of good, while the barring of

the blessed book is a measure of evil,

calculated to please, to the heart, those

who love darkness rather than light. There

are good men and women in our midst

who argue against the reading of the Bible

to the pupils, on the ground that denomi-

nationalism would be brought into play;

but the number is comparatively small,

and there would be no danger of such a

result, as the Bible would simply be read,

not commented upon; and if there exist

passages which the superintendent would

not want read to the children, then could

the superintendent issue orders to that

effect. What's the matter with the Bible?

A Des Moines woman who has been

to try an old remedy in a new way,

and accordingly took a tablespoonful

During the day she took a few doses of the

at night again took a tablespoonful

of the cold. Since then she has, on several

occasions, used this remedy in like manner,

with the same good results, and is much

A BLOW TO SILVER.

Bigger Sound Money Majority Than Expected In the House.

SILVER BOND BILL BADLY BEATEN.

The Silver Leaders Had Predicted a Much Greater Showing of Strength—The Vote a Surprise to Sound Money Men—A Lively Debate.

WASHINGTON, Feb. 15.—The majority against silver in the house when the final vote was taken on concurrence in the senate free silver amendment was larger than that in committee of the whole. Then the motion to concur was defeated, 190 to 80, a majority of 110; on the final vote it was beaten 215 to 90, a majority of 125. The vote was a record-making vote, and, counting the pairs, but 37 out of 256 members were unaccounted for. Perhaps a few absentees dodged, but most of them were unavoidably absent and were unable to secure pairs.

The silver men who predicted a much greater showing of strength were again disappointed. "The sound money" leaders had been disposed to concede the silver forces 100 votes. An analysis of the vote shows that 184 Republicans and 31 Democrats voted against concurrence and 58 Democrats, 25 Republicans and 7 Populists for concurrence. The debate which preceded the vote was of an interesting character, but devoid of any sensational features. The galleries, as usual in a field day in the lower branch of congress, were crowded to the doors and quite a number of senators, including Palmer (Ill.), Bacon (Ga.), Cockrell (Mo.) and Butler (N. C.), sat through the five-hour debate. Secretary Herbert was also present.

Ex-Speaker Crisp presented the closing argument for the silver men and was replied to by Mr. Turner, a Democratic colleague from Georgia, in a two hours' speech. The personal rivalry between the two leaders of the opposing factions of the Democratic side of the house added to the interest of the occasion. Mr. Dailzell (Pa.) closed in behalf of the Republicans. The partisans of the respective champions missed no opportunity to acclaim their approval when telling points were made and at the close the honors seemed even.

TALBERT GETS A ROAST.

Hardy of Indiana Attacks the South Carolinian in Bitter Language.

WASHINGTON, Feb. 15.—Mr. Talbert (S. C.), who Barrett (Mass.) wanted to censure, was the subject of a bitter personal attack by Mr. Hardy (Rep., Ind.) because of his opposition to a pension bill at the next session of the house.

"We have heard from South Carolina," said he, "year in and year out, except the four years when she was out of the Union. She has caused more trouble than any State in the Union from the time when John C. Calhoun tried to nullify the statutes of the United States in 1832 and Jackson threatened to hang him for his pains, up to the present time when the gentleman from South Carolina appears in this body and a gentleman (Tillman) with similar propensities appears at the other end of the capitol. His record here is without a parallel. I am here to vote for every pension bill presented to this house despite South Carolina, which has not sent an honestly elected representative to congress since 1872."

Mr. Talbert restrained himself with difficulty. Later, on talking on another bill, he said:

"I have noticed that those who are invincible in time of peace were generally invincible in time of war." (General laughter.)

Hardy was in neither army, while Talbert was a Confederate.

WE BUILD WARSHIPS CHEAP.

England the Only Nation That Does Better In This Respect.

WASHINGTON, Feb. 15.—Secretary Herbert was before the house committee on naval affairs for two hours, going over many questions of naval armament and outlining his views on desirable features of naval appropriation. The secretary submitted several interesting tables showing the relative cost of warships in the United States and foreign countries.

The disclosures that the United States is now able to build better ships at less cost than any country in the world save Great Britain, and the latter country is but slightly ahead of the United States in the economy of naval shipbuilding. It was also made evident that the cost of building warships in the United States had been vastly reduced in recent years.

State of the Gold Reserve.

WASHINGTON, Feb. 15.—The sub-treasury at New York has lost \$1,549,000 in gold coin and \$13,400 in bars, leaving the true amount of the gold reserve \$70,180,870.

DUN'S REVIEW OF TRADE.

Weather, Closeness of Money and Inaction of Congress Retard Business.

NEW YORK, Feb. 15.—R. G. Dun & Co.'s Weekly Review of Trade, issued to-day, says: The weather still hinders business, as does continued closeness of money and prolonged inaction of congress, but confidence increases.

The production of pigiron 198,599 tons weekly Feb. 1, is 4.3 per cent less than Jan. 1, and 8.5 per cent less than Nov. 1, while the unsold stocks increased 63,188 tons in January, showing an output much exceeding the present demand and moreover larger stocks than for a long time are carried by the great steel works.

Pigiron at the east and at Chicago has not advanced. Southern competition continuing at prices so low that several Alabama furnaces have stopped, but Bessemer is a shade lower at Pittsburgh. The demand for plates, sheets and wire nails continues fairly good, and there are more orders for railroad cars and bar iron at Chicago, but no further sales of rails appear, and the demand for finished products keeps but about 70 per cent of the capacity employed. The coke output is again much reduced.

Sales of wool have been small for two weeks of February, 9,320,700 pounds, against 10,360,550 last year, and 12,502,550 in 1898, but higher prices abroad sustained by heavy shipments of goods to this country, incline holders of wool here to make no concessions, so that manufacturers have the more difficulty in meeting competition.

Produce markets tend downward, mainly because supplies exceed expectations. Wheat has declined 3/4 cents. Corn is a shade lower and both pork and lard a little lower.

The failures for the week have been 321 in the United States, against 270 last year, and 67 in Canada, against 51 last year.

Mrs. Holliday Must Pay Damages.

LOS ANGELES, Feb. 15.—The jury in the Holliday damage case has brought in a verdict awarding damages to Mrs. Fanny Holliday in the sum of \$500 for malicious prosecution. Mrs. E. L. Holliday, a co-defendant with her husband, is a daughter of the late Allen G. Thurman of Ohio.

Alterations of Cruiser Atlanta.

BROOKLYN, Feb. 15.—Chief Engineer Melville recommends that the cruiser Atlanta be equipped with new machinery and her hull altered, at a cost of over \$300,000. The construction department is in favor of only putting in new boilers, at a cost of \$30,000.

To Report on Venezuelan Dispute.

LONDON, Feb. 15.—The British and Foreign Arbitration association has delegated one of its vice presidents to visit the United States in order to obtain matter for a report to the association upon the Venezuela boundary dispute and its outcome.

Steamer In the Ice.

KINGSVILLE, Ont., Feb. 15.—A steamer having two smokestacks and painted a light color, has been stuck in the ice four miles from here several days. There is no way of identifying her and floating ice prevents assistance being given.

Must Explain a Suspicious Death.

CHICAGO, Feb. 15.—John Koehler, who is locked up charged with a conspiracy to murder his family, may be called upon the police say to explain the death of his first wife, who died from poison over two years ago.

Dwyer Must Pay the \$15,000.

NEW YORK, Feb. 15.—Justice Truax has denied a motion made by Philip Dwyer, president of the Brooklyn Jockey club, to set aside the verdict of the sheriff's jury awarding David Gideon \$15,000 for libel.

PEARL BRYAN'S MURDERERS.

They Will Fight Requisition Issued by Governor Bradley Last Night.

FRANKFORT, Ky., Feb. 15.—Requisition papers for Scott Jackson and Alonzo Walling, the murderers of Pearl Bryan, were issued last night. They would have been issued sooner, but Sheriff Plummer had to return to Newport for some additional papers. Governor Bradley says if Plummer needs any assistance for the protection of the prisoners at Newport, the arsenal of Kentucky is at command.

A Cincinnati special says: Lawyers of the prisoners will fight requisition on the grounds of danger of a lynching. The identification of the hat found near the place where the body of Pearl Bryan was found is regarded as one of the most conclusive proofs that the crime of murder took place at that location and not in Cincinnati. There is further corroboration of this theory in the finding of a black bead, such as was on the hat of the murdered girl, very near where the body was left. This would indicate a struggle and some violence and that the hat was worn by the victim at that time and place.

Search in the canal and other places for the missing head was unsuccessful. But the head is no longer needed to prove the crime or point out the criminal, but the public pity for the friends of the murdered girl is so strong that rewards amounting to nearly a thousand dollars have been offered for information that will lead to finding the head. The fact that Jackson and Walling, who have freely told where they put the girl's clothing and still refuse the friends of their victim the information which would enable them to give Pearl Bryan a whole body decent interment, intensifies, if possible, the loathing which their unparalleled brutality in this murder has created.

PRINCE BORIS BAPTIZED.

A Belief That It Means Submission of Bulgaria to Russia.

SOFIA, Bulgaria, Feb. 15.—Prince Boris, eldest son of Prince Ferdinand of Bulgaria, has been baptized with great ceremony, according to the rites of the orthodox Greek church. The baptism took place in the cathedral, which was crowded with Bulgarian nobilities and others. Prince Boris was escorted to the cathedral by the life guards, where the foreign representatives and court dignitaries had already assembled.

After the ceremony of anointing the prince had been ended he was carried in triumph procession to the palace amid the thunder of guns, the acclamations of the multitude and general public rejoicing.

In some quarters the baptism of the crown prince into the orthodox church is looked upon as practically a surrendering of the Bulgarian principality into the hands of the czar.

Much Loss From a Storm.

BOWLING GREEN, O., Feb. 15.—The storm throughout the oil field resulted in much damage. The heavy wind that prevailed leveled many derricks to the ground. Ice and snow broke down telegraph wires, and all communication with the Buckeye line company's pump stations has been cut off in many parts of the field. The loss in Wood county alone, including production, will reach about \$20,000.

Cincinnati Porkpackers Fail.

CINCINNATI, Feb. 15.—Jacob Vogel & Sons, porkpackers, have assigned to Frank J. Dorger. Assets, \$75,000; liabilities not known.

Shoemakers Likely to Strike.

HAVERTHILL, Mass., Feb. 15.—The labor situation in the shoe industry here is reaching a crisis. A strike is probable.

that they will be reimbursed and re-

OUR BIBLE.

And now we have the assurance
that the book of holy writ is not to be
read in the public schools of East Liver-
pool by the teachers, as Superintendent
Sanor evidently understands this to be
the decision of our board of
education. We have this information
directly from one of the teachers, a
lady whose veracity cannot be ques-
tioned, and who has been in the habit
of reading the book of books to her
pupils. The next question at issue
will probably be: "Can the teachers
or pupils take the Bible with them to
school, if they so desire?" The mat-
ter has caused a decided sensation in
the city and will not be cried down.
A large number of staunch
and conservative citizens have
interviewed the management of
the NEWS REVIEW on this subject,
and they denounce, in no measured
terms, the action of the board of edu-
cation respecting the Bible question.
The outlook is that those who advo-
cate reading of the inspired volume
in the public schools will not let the
matter rest, as their number is legion,
and they consider the subject one of
vital import to the community at
large, believing that the reading
thereof is conducive of good, while
the barring of the blessed book is a
measure of evil, calculated to please, to
the heart, those who love darkness
rather than light. There are good men
and women in our midst who argue against
the reading of the Bible to the pupils,
on the ground that denominational-
ism would be brought into
play; but the number is com-
paratively small, and there would be
no danger of such a result, as the
Bible would simply be read, not com-
mented upon; and if there exist pas-
sages which the superintendent would
not want read to the children, then
could the superintendent issue orders
to that effect. What's the matter with
the Bible?

A Des Moines woman who has been
troubled with frequent colds, con-
cluded to try an old remedy in a new
way, and accordingly took a table-
spoonful (four times the usual dose) of
Chamberlain's Cough Remedy just be-
fore going to bed. The next morning
she found that her cold had almost
entirely disappeared. During the day
she took a few doses of the remedy
(one teaspoonful at a time) and at
night again took a table-
spoonful before going to bed, and on
the following morning awoke free
from all symptoms of the cold. Since
then she has, on several occasions,
used this remedy in like manner, and
the same good results, and is much
elated over her discovery of so quick a
way of curing a cold. For sale by A.

A BLOW TO SILVER.

Bigger Sound Money Majority
Than Expected In the House.

SILVER BOND BILL BADLY BEATEN.

The Silver Leaders Had Predicted a Much
Greater Showing of Strength. The Vote
a Surprise to Sound Money Men—A
Lively Debate.

WASHINGTON, Feb. 15.—The majority
against silver in the house when the
final vote was taken on concurrence in
the senate free silver amendment was
larger than that in committee of the
whole. Then the motion to concur was
defeated, 190 to 80, a majority of 110;
on the final vote it was beaten 215 to 90,
a majority of 125. The vote was a re-
cord-making vote, and, counting the
pairs, but 37 out of 256 members were
unaccounted for. Perhaps a few ab-
sentees dodged, but most of them were
unavoidably absent and were unable to
secure pairs.

The silver men who predicted a much
greater showing of strength were again
disappointed. "The sound money"
leaders had been disposed to concede
the silver forces 100 votes. An analysis
of the vote shows that 184 Republicans
and 21 Democrats voted against con-
currence and 58 Democrats, 25 Republicans
and 7 Populists for concurrence. The
debate which preceded the vote was of
an interesting character, but devoid of
any sensational features. The galleries,
as usual in a field day in the lower branch
of congress, were crowded to the doors
and quite a number of senators, includ-
ing Palmer (Ill.), Bacon (Ga.), Cock-
rell (Mo.) and Butler (N. J.), sat
through the five-hour debate. Secretary
Herbert was also present.

Ex-Speaker Crisp presented the closing
argument for the silver men and was
replied to by Mr. Turner, a Demo-
cratic colleague from Georgia, in a two
hours' speech. The personal rivalry be-
tween the two leaders of the opposing
factions of the Democratic side of the
house added to the interest of the oc-
casion. Mr. Dailzell (Pa.) closed in be-
half of the Republicans. The partisans
of the respective champions missed
no opportunity to acclaim their approval
when telling points were made and at
the close the honors seemed even.

TALBERT GETS A ROAST.

Hardy of Indiana Attacks the South
Carolinian In Bitter Language.

WASHINGTON, Feb. 15.—Mr. Talbert
(S. C.), who Barrett (Mass.) wanted to
censure, was the subject of a bitter per-
sonal attack by Mr. Hardy (Rep., Ind.)
because of his opposition to a pension
bill at the night session of the house.

"We have heard from South Caro-
lina," said he, "year in and year out,
except the four years when she was out
of the Union. She has caused more
trouble than any State in the Union
from the time when John C. Calhoun
tried to nullify the statutes of the
United States in 1832 and Jackson
threatened to hang him for his pains,
up to the present time when the gentle-
man from South Carolina appears in
this body and a gentleman (Tillman)
with similar propensities appears at the
other end of the capitol. His record
here is without a parallel. I am here
to vote for every pension bill pre-
sented to this house despite South
Carolina, which has not sent an hon-
estly elected representative to congress
since 1872."

Mr. Talbert restrained himself with
difficulty. Later, on talking on another
bill, he said:

"I have noticed that those who are in-
vincible in time of peace were gener-
ally invisible in time of war." [General
laughter.]

Hardy was in neither army, while Tal-
bert was a Confederate.

WE BUILD WARSHIPS CHEAP.

England the Only Nation That Does Bet-
ter In This Respect.

WASHINGTON, Feb. 15.—Secretary
Herbert was before the house commit-
tee on naval affairs for two hours, going
over many questions of naval arma-
ment and outlining his views on desir-
able features of naval appropriation. The
secretary submitted several interesting
tables showing the relative cost of war-
ships in the United States and foreign
countries.

The disclosures that the United States
is now able to build better ships at less
cost than any country in the world save
Great Britain, and the latter country is
but slightly ahead of the United States
in the economy of naval shipbuilding.
It was also made evident that the cost
of building warships in the United
States had been vastly reduced in re-
cent years.

DUN'S REVIEW OF TRADE.

Weather, Closeness of Money and Inac-
tion of Congress Retard Business.

NEW YORK, Feb. 15.—R. G. Dun &
Co.'s Weekly Review of Trade, issued to-
day, says: The weather still hinders
business, as does continued closeness of
money and prolonged inaction of con-
gress, but confidence increases.

The production of pigiron 198,599
tons weekly Feb. 1, is 4.3 per cent less
than Jan. 1, and 8.5 per cent less than
Nov. 1, while the unsold stocks increased
63,188 tons in January, showing an out-
put much exceeding the present demand
and moreover larger stocks than for a
long time are carried by the great
steel works.

Pigiron at the east and at Chicago has
not advanced. Southern competition
continuing at prices so low that several
Alabama furnaces have stopped, but
Bessemer is a shade lower at Pittsburg.
The demand for plates, sheets and wire
nails continues fairly good, and there
are more orders for railroad cars and bar
iron at Chicago, but no further sales of
rails appear, and the demand for fin-
ished products keeps but about 70 per
cent of the capacity employed. The coke
output is again much reduced.

Sales of wool have been small for two
weeks of February, 9,320,700 pounds,
against 10,260,550 last year, and 12,592,-
550 in 1893, but higher prices abroad
sustained by heavy shipments of goods
to this country, incline holders of wool
here to make no concessions, so that
manufacturers have the more difficulty
in meeting competition.

Produce markets tend downward,
mainly because supplies exceed expecta-
tions. Wheat has declined 3/4 cents.
Corn is a shade lower and both pork
and lard a little lower.

The failures for the week have been
321 in the United States, against 270 last
year, and 67 in Canada, against 51 last
year.

malicious prosecution. Mrs. E. L. Holli-
day, a co-defendant with her husband,
is a daughter of the late Allen G. Thur-
man of Ohio.

BROOKLYN, Feb. 15.—Chief Engineer
Melville recommends that the cruiser

ery and her hull altered, at a cost of

ment is in favor of only putting in new
boilers, at a cost of \$20,000.

and its outcome.

Steamer In the Ice.

KINGSVILLE, Ont., Feb. 15.—A steamer
having two smokestacks and painted a
light color, has been stuck in the ice
four miles from here several days.
There is no way of identifying her and
floating ice prevents assistance being
given.

Must Explain a Suspicious Death.

CHICAGO, Feb. 15.—John Kochler,
who is locked up charged with a con-
spiracy to murder his family, may be
called upon the police say to explain the
death of his first wife, who died from
poison over two years ago.

Dwyer Must Pay the \$15,000.

NEW YORK, Feb. 15.—Justice Truax
has denied a motion made by Philip
Dwyer, president of the Brooklyn
Jockey club, to set aside the verdict of
the sheriff's jury awarding David
Gideon \$15,000 for libel.

PEARL BRYAN'S MURDERERS.

They Will Fight Requisition Issued by
Governor Bradley Last Night.

FRANKFORT, Ky., Feb. 15.—Requisi-
tion papers for Scott Jackson and Alonzo
Walling, the murderers of Pearl Bryan,
were issued last night. They would have
been issued sooner, but Sheriff Plum-
mer had to return to Newport for some
additional papers. Governor Bradley
says if Plummer needs any assistance
for the protection of the prisoners at
Newport, the arsenal of Kentucky is at
command.

A Cincinnati special says: Lawyers
of the prisoners will fight requisition
on the grounds of danger of a lynching.

The identification of the hat found
near the place where the body of Pearl
Bryan was found is regarded as one of
the most conclusive proofs that the
crime of murder took place at that loca-
tion and not in Cincinnati. There is
further corroboration of this theory in
the finding of a black bead, such as was
on the hat of the murdered girl, very
near where the body was left. This
would indicate a struggle and some
violence and that the hat was worn by
the victim at that time and place.
Search in the canal and other places
for the missing head was unsuccessful.
But the head is no longer needed to
prove the crime or point out the crim-
inal, but the public pity for the friends
of the murdered girl is so strong that
rewards amounting to nearly a thousand
dollars have been offered for informa-
tion that will lead to finding the head.
The fact that Jackson and Walling, who
have freely told where they put the
girl's clothing and still refuse to friend-
ly of the victim the information which
would enable them to give Pearl Bryan a
whole body decent interment, intensifies,
if possible, the loathing which their
paralleled brutality in this murder has
created.

PRINCE BORIS BAPTIZED.

A Belief That It Means Submission of
Bulgaria to Russia.

SOFIA, Bulgaria, Feb. 15.—Prince
Boris, eldest son of Prince Ferdinand
of Bulgaria, has been baptized with
great ceremony, according to the rites
of the orthodox Greek church. The
baptism took place in the cathedral,
which was crowded with Bulgarian
notabilities and others. Prince Boris
was escorted to the cathedral by the
life guards, where the foreign repre-
sentatives and court dignitaries had
already assembled.

After the ceremony of anointing the
prince had been ended he was carried
in triumphal procession to the palace
amid the thunder of guns, the accla-
mations of the multitude and general
public rejoicing.

In some quarters the baptism of the
crown prince into the orthodox church
is looked upon as practically a surren-
dering of the Bulgarian principality into
the hands of the czar.

Much Loss From a Storm.

BOWLING GREEN, O., Feb. 15.—The
storm throughout the oil field resulted
in much damage. The heavy wind
that prevailed leveled many derricks to
the ground. Ice and snow broke down
telegraph wires, and all communication
with the Buckeye line company's pump
stations has been cut off in many parts
of the field. The loss in Wood county
alone, including production, will reach
about \$20,000.

MAHER'S EYES BETTER

The Irishman Will Be Able to Fight Monday.

BIG FIGHT BOUND TO OCCUR.

It is the Only Chance For Stuart and the Kinetoscope People to Get Back Their Money—Place of the Mill Still a Secret.

EL PASO, Tex., Feb. 15.—Quinn, the backer of Maher, has telephoned from Las Cruces that Peter's eyes are 25 per cent better and that he will be ready to be in the ring Monday. In the meantime concessions have been secured for a big fight in Juarez to-morrow. A few sports have gone home, but a majority are hanging on with implicit faith in Stuart's ability to pull off the Maher-Fitzsimmons fight as he has agreed to do. There is no question but that the fight will take place, but whether it will be on Monday or not is an open question.

If Maher's eyes do not recover with sufficient rapidity to enable him to get into the ring on next Monday, Fitzsimmons may decline to wait any longer. Fitzsimmons is a sorely disappointed man over the turn things are taking, and is a little inclined to find fault with Maher for not taking sufficient precautions during his training. The constant dogging of his every movement by the Texas Rangers has added another feature to the disgust which Fitzsimmons entertains of the general situation. There is no doubt that he is very anxious to fight, provided he does not run up against a jail, and particularly a Mexican jail.

Mr. White, who has been attending Maher, said after his patient had departed for Las Cruces that he had grave fears as to Maher's ability to be in the ring on Monday.

Governor Ahumada is still on the alert to prevent any fight in Chihuahua. He has his men out watching eagerly for any signs of men crossing the river in large numbers. Even the Mexican collector of customs is on the watch.

Thomas F. O'Rourke, the backer of Joe Walcott, will have his man weigh in today and claim the forfeit of Dan Stuart of \$250 if the fight between his man and Bright Eyes is not brought off. There is no likelihood that this fight will take place. It cannot be pulled off without giving the authorities a tip as to where Stuart intends to bring off the big battle, and he will take no chances on having that fight stopped. The situation has worked about to a simple proposition of having the fight before the kinetoscope. It is practically Stuart's only chance to win out and the only hope that the kinetoscope people have for the recovery of the \$17,000 they have already put into the scheme.

The kinetoscope, of course, is the strongest thing in favor of the fight coming off, and an effort will certainly be made to get the men into the ring as soon as Maher is in any condition to fight. The location of the fight is still the same deep impenetrable secret. No body knows a thing about it, and only one thing is certain—it will not be in Texas. It may be four miles from El Paso and it may be a hundred. Nobody save Stuart knows the direction or distance.

SAILED IN OPEN DEFIANCE.

A Vessel Leaves For Cuba With Arms For Rebels.

WILMINGTON, N. C., Feb. 15.—The steamer Commodore, the alleged filibustering vessel which has been detained here for some time, has received her clearance papers and sailed. She is supposed to have aboard arms and ammunition for the Cuban insurgents and her probable destination is Charleston, S. C.

The departure of the vessel was made without any effort at secrecy, but on the contrary she sailed away blowing her whistles and with other evidences of demonstration. This action is in accordance with the statements of Counsel Kerr, of the Hart line of steamers, to which the commodore belonged who said that the vessels of his line would openly sail with arms and ammunition for the Cubans.

THE G. A. R. GETS RATES.

The National Encampment Will Now Be Held In St. Paul.

MINNEAPOLIS, Feb. 15.—The Minneapolis and St. Louis railroad has announced that it will make as long a time limit on the tickets for the G. A. R. encampment at St. Paul as any other road running into the twin cities.

This makes three roads that have agreed to a 30-day limit, and it meets the requirements of the commander-in-chief of the Grand Army. The other roads are the Wisconsin Central and Chicago and Great Western.

Carlisle Likely to Ignore It.

FRANKFORT, Ky., Feb. 15.—The five gold standard Democrats are unanimous in saying that the petition forwarded to Secretary Carlisle by friends of Senator Blackburn asking him to use his influence to induce them to vote for Blackburn will not have the slightest effect on them. No one here believes that the secretary will pay any attention to it.

NANSEN LIKELY SUCCESSFUL.

Scientists Unanimous In Believing That He Has Reached the North Pole.

ST. PETERSBURG, Feb. 15.—No confirmation has been received of the news that Dr. Nansen has discovered the North Pole and is returning to civilization. Captain Wiggins opines that it is true that Nansen is returning but he must have abandoned his ship. This observer regards the report regarding Nansen as not impossible.

A London special says: The Daily News has an interview on the subject with Clements R. Markham, president of the Royal Geographical society, who did not think it was impossible that Dr. Nansen had reached the pole.

A Naperville (Ill.) special says: Evelyn D. Baldwin, the meteorologist of the Peary expedition, when asked what he thought of the reported discovery of the North Pole by Dr. Nansen, said: "I think it highly probable. It is the result of well calculated plans and not unexpected."

An Indianapolis special says: Julius R. Fredericks, who was a sergeant in the Greeley expedition, says that he thinks it is in the bounds of possibility that Nansen has reached the North Pole.

A Philadelphia special says: Prof. Charles E. Hite, who was naturalist on the Peary relief expedition, says: "I have not the slightest doubt that Dr. Nansen was successful. I feel perfectly satisfied that the report is authentic and that he has reached the coveted goal."

LOVED A REBEL BOLD.

A Spanish Girl Elopes With the Cuban Leader Roban.

HAVANA, Feb. 15.—The little village of Malpaz has its story of love and romance, which is diverting its inhabitants in the midst of war's alarms. It seems that Miss Ventura Gonzales, the handsome daughter of a loyal Spanish house, had many admirers, the number not being confined to the loyal sons of Spain, though there were enough of them who sought to win favor in the senorita's lustrous dark eyes.

But she looked beyond them to a certain dashing insurgent leader, who did not allow his interests to suffer while he was conducting daring raids and running around the bewildered Spanish forces. Her family and friends, of course, opposed her choice, and sought to wear her away from her Cuban friend. But the sequel comes in the news that senorita Ventura Gonzalez has eloped with the insurgent leader Luis Roban.

ANTI-LIQUOR BILLS.

Two Temperance Measures Introduced In the House.

CERTIFICATES OF CHARACTER

COLUMBUS, Feb. 15.—Mr. Goodale has introduced a bill in the house providing that every May saloonkeepers shall file with the probate court affidavits of three taxpayers testifying to the good moral character of the saloonist and that he had not been arrested during the previous year for violation of law, whereupon the probate court shall issue a certificate, which must be conspicuously posted in the saloon. This bears the name of the person owning the property occupied by the saloon. A failure to keep this posted carries with it a fine of \$200.

Mr. Hegg introduced a bill providing that druggists shall sell liquor only on prescriptions and keep an open record of the same under penalty of \$250 to \$1,000. They will be required to pay a tax of only \$25.

Other bills introduced were: Authorizing any officer to arrest any one thought to be guilty of violation of law and hold him a reasonable time until a warrant can be obtained.

GROCER FOR THE PEOPLE.

The Finest Line of

MAHER'S EYES BETTER

The Irishman Will Be Able to Fight Monday.

BIG FIGHT BOUND TO OCCUR.

It is the Only Chance For Stuart and the Kinetoscope People to Get Back Their Money—Place of the Mill Still a Secret.

EL PASO, Tex., Feb. 15.—Quinn, the backer of Maher, has telephoned from Las Cruces that Peter's eyes are 25 per cent better and that he will surely be able to be in the ring Monday. In the meantime concessions have been secured for a big bullfight in Juarez to-morrow. A few sports have gone home, but a majority are hanging on with implicit faith in Stuart's ability to pull off the Maher-Fitzsimmons fight as he has agreed to do. There is no question but that the fight will take place, but whether it will be on Monday or not is an open question.

If Maher's eyes do not recover with sufficient rapidity to enable him to get into the ring on next Monday, Fitzsimmons may decline to wait any longer. Fitzsimmons is a sorely disappointed man over the turn things are taking, and is a little inclined to find fault with Maher for not taking sufficient precautions during his training. The consensus of opinion among the sportsmen is that the Texas Rangers has added another feature to the disgust which Fitzsimmons entertains of the general situation. There is no doubt that he is very anxious to fight, provided he does not run up against a jail, and particularly a Mexican jail.

Dr. White, who has been attending Maher, said after his patient had departed for Las Cruces that he had grave fears as to Maher's ability to be in the ring on Monday.

Governor Ahumada is still on the alert to prevent any fight in Chihuahua. He has his men out watching eagerly for any signs of men crossing the river in large numbers. Even the Mexican collector of customs is on the watch.

Thomas F. O'Rourke, the backer of Joe Walcott, will have his man weigh in today and claim the forfeit of Dan Stuart of \$250 if the fight between his man and Bright Eyes is not brought off. There is no likelihood that this fight will take place. It cannot be pulled off without giving the authorities a tip as to where Stuart intends to bring off the fight, and he will take no chances on having that fight stopped. The situation has worked down to a simple proposition of having the fight before the kinetoscope.

It is practically Stuart's only chance to win out and the only hope that the kinetoscope people have for the recovery of the \$17,000 they have already put into the scheme.

The kinetoscope, of course, is the strongest thing in favor of the fight coming off, and an effort will certainly be made to get the men into the ring as soon as Maher is in any condition to fight. The location of the fight is still the same deep impenetrable secret. Nobody knows a thing about it, and only one thing is certain—it will not be in Texas. It may be four miles from El Paso and it may be a hundred. Nobody save Stuart knows the direction or distance.

LOVED A REBEL BOLD.

A Spanish Girl Elopes With the Cuban Leader Robau.

HAVANA, Feb. 15.—The little village of Malpaz has its story of love and romance, which is diverting its inhabitants in the midst of war's alarms. But she looked beyond them to a certain dashing insurgent leader, who did not allow his interests to suffer while he was conducting daring raids and running around the bewitched Spanish forces. Finally his ratship got away and the fight was given up in disgust.

TO REMEMBER LINCOLN

Legislators May Set Aside a
Day for That Purpose.

THE QUESTION IS DISCUSSED

A Strong Possibility of This State Passing
a Law Making the Anniversary of the
Birth of Lincoln a State Holiday—Meets
With Approval.

The bill to make the anniversary of the birth of Lincoln a state holiday, in Ohio, is one of the possibilities of the near future. During a conversation among the members of the house of representatives at Columbus quite recently, the virtues of the martyred President were being warmly discussed, and his name extolled by all. A suggestion was made by one of the party present that some tangible action be taken by that august body towards showing a befitting appreciation and respect for the memory of the immortal president and the setting aside of one day in the year, to be observed with appropriate pomp and ceremony, in honor and commemoration of his birth. The suggestion offered met with the unanimous approval of all and the propriety of forming a bill authorizing an observance of Lincoln Day brought forth many expressions of approval. Although still in an unfinished state, the movement gives promise of assuming tangible proportions if the hearty co-operation shown at present can be taken for anything. In a number of other states a law of this kind has been enacted, although it is held by many, in opposition to the measure, that the close proximity to Washington's birthday is an objection against making it a law.

THE PLAY.

A Small Audience Attends a Clever
Show.

The audience at the Grand was the smallest of the week, although the beautiful little comedy, "A Horner's Nest," deserved a packed house. But as Friday nights are considered "Jonahs" by the house management, a large house was not expected. The piece was a neat and pretty one and was acted in a superb manner. Mr. Webber's work being exceptionally good. The play savored freely of "Jane," and was almost identical in many parts. It was the banner production of the week, and those who remained away missed an excellent treat. The after piece, "To Oblige Benson," was well received, and Miss Jeannie Tarr added more laurels by her delightful acting. Tonight the company will produce "Fogarty's Fortune," which made such a hit during their former visit to this city.

A Superior Attraction.

One of the strongest dramatic organizations on the road this season is the triple alliance of Charles B. Hanford, Elishu R. Spence and Nora O'Brien, who have joined forces to properly and adequately present the Shakespearean and other standard plays. They carry the most pretentious scenic productions of the plays in their repertoire of any company in the country. They will be seen in this city on Thursday evening, Feb. 20, and should receive the hearty support of those who love the classic drama.

"RUN-DOWN."
"tired out" woman who complains of backache, headache, loss of appetite, extreme lassitude and that "don't care" feeling is pretty sure to be suffering from "Female Weakness," some irregularity or derangement of the special functions of womanhood. Very often womb troubles set the nerves wild with affliction and as a result the woman suffers from sleeplessness, nervousness, irritability and indigestion. In all cases of irregularity or suspended monthly function and in all those nervous diseases depending upon local causes, Dr. Pierce's Favorite Prescription will restore you to perfect health. Instead of the exhaustion and feeling of weight and dragging down in the abdomen, you feel fresh and strong. For young girls who suffer from irregularities, for the hard-working woman who suffers from catarrhal inflammation of the lining membranes causing a constant drain upon the system, there is no prescription used by any physician which can equal in results Dr. Pierce's. For over thirty years Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute of Buffalo, N. Y., has used his "Favorite Prescription" in the diseases of women and has long been his specialty and in fully ninety-eight per cent of all cases, it has permanently cured.

Mrs. JOHN M. CONKLIN, of Patterson, Putnam Co., N. Y., writes: "I am enjoying perfect health, and have been since I took the last bottle of Doctor Pierce's Favorite Prescription. I took five bottles of it. Never expected to be any better when I commenced taking your medicine, and I had falling of the womb, and flowing caused by miscarriage, and was very weak when I commenced taking your medicine. I was cured by taking five bottles in full of the 'Favorite Prescription' and three of the 'Golden Medical Discovery.'"

ECCLESIASTICAL ROME.

An Always Present Power That Gives the City Its Importance.

"Ecclesiastical" Rome is the stronghold of a most tremendous fact from whatever point of view Christianity may be considered. If one could in imagination detach the head of the Catholic church from the church, one would be obliged to admit that no single living man possesses the far-reaching and lasting power which in each succeeding papal reign belongs to the pope. Behind the pope stands the fact which confers, maintains and extends that power from century to century—a power which is one of the hugest elements of the world's moral activity, both in its own direct action and in the counteraction and antagonism which it calls forth continually.

It is the all pervading presence of this greatest fact, literally, in Christendom which has carried on Rome's importance from the days of the Caesars across the chasm of the dark ages to the days of modern popes, and it is this really enormous importance which continually throws forward into cruel relief the perilities and inanities of the daily outward world. It is the consciousness of that importance which makes old Roman society what it is, with its virtues, its vices, its prejudices and its strange, old fashioned, close fistled kindliness, which makes the contrast between the saturnalia of Shrove Tuesday night and the cross signed with ashes upon the forehead of Ash Wednesday morning, between the careless laughter of the Roman beauty in carnival and the tragic earnestness of the same lovely face when the great lady kneels in Lent before the confessional to receive upon her bent head the light touch of the penitentiary's wand, taking her turn perhaps with a score of women of the people. It is the knowledge of an always present power, active throughout the whole world, which throws deep, straight shadows, as it were, through the Roman character, just as in certain ancient families there is a secret that makes grave the lives of those who know it.—Marion Crawford in Century.
